Ball Caster Transfer Table

Model: BCT

Designed for the manual transfer of glass lites and insulated glass units. PST offers standard table sizes or made-to-order table sizes. Each table size is offered in three standard ball caster spacing configurations suitable for large to small glass pieces.

Features and Specifications

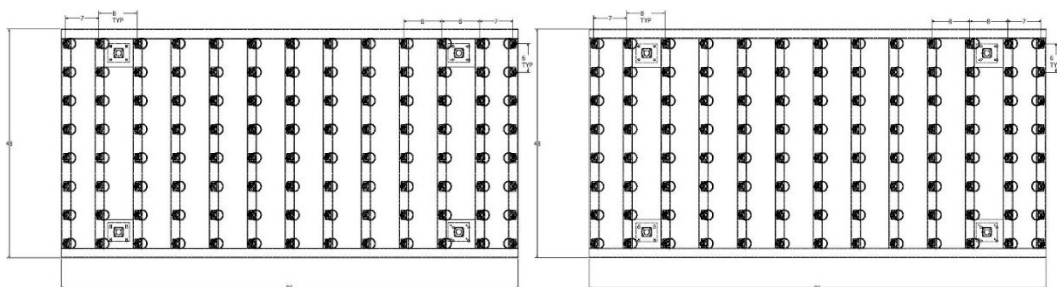

- Standard ball caster pitch spacing – 12 x 12", 6 x 8", 6 x 6".
- Design working design payload > 20 lbs / sq-ft. Smaller area discrete loading – max 50 lbs / sq-ft
- Standard table height 36" ± 2" (34" to 38").
- 2" dia ball casters molded from rubber compound to ensure a scratch-free glass environment.
- Each ball caster is securely screw-mounted onto the steel frame.
- Table top frame fully MIG welded from 2" x 2" heavy wall tubular steel.
- Leg height and leveling adjustment ± 2" (1 ¼" dia all-thread jack bolts).
- Bolt on legs for ease of shipping will apply to wide table sizes or multiple unit orders.
- Industrial paint color: standard PST green or safety blue, custom color match optional.

Options

- Custom sizing and featured tables offered made-to-order.
 - 6" floor casters for mobility. (two – rigid, two – swivel w/ lever lock) Add \$387.00
 - Table top cutouts available for operator reach or seamer machinery – [cut-out options](#)
 - Pneumatic tilting ball caster tables – reference PST Model PT-BCT – [pneumatic tilt options](#)
- Table sizing indicates overall width and length footprint.
 - Ball caster spacing may vary +/- 1 inch for proper fit within frame.
 - Ordering example for Model BCT-36X24 with 6"X6" caster spacing: BCT-36X24-6X6
